BOWLINE LIQUID TOILET CLEANER

DESCRIPTION

BOWLINE is a blue liquid with a pleasant cologne floral fragrance.

BOWLINE is formulated on safe organic acids and non- ionic surfactants, a combination that has proven to be the least corrosive to all metal yet gives excellent performance.

APPLICATION

BOWLINE can be used safely on a wide variety of surfaces including stainless steel and porcelain toilet bowls and urinals.

BOWLINE incorporates a blend of fast acting acids and wetting agents combined with a specially formulated thixotropic agent. The acidic detergency provides a rapid penetration and dissolution of lime scale deposits, uric acid deposits and stains, whilst the thixotropic characteristics ensure that the thickened liquid has an extended contact time by "sticking" to all vertical surfaces.

The regular use of BOWLINE controls uric acid deposits and brightens stainless steel and porcelain surfaces.

FEATURES

- * Based on non corrosive acids
- * Thick liquid
- * Contains a high residual fragrance
- * Contains no harsh biocides

BENEFITS

- * Safe on all metals, plastics and porcelain surfaces encountered.
- * Ensures adequate contact on curved and vertical surfaces.
- * Assists in masking unpleasant odours.
- * Safe in septic systems.

DIRECTIONS FOR USE

The toilet bowl or urinal should initially be flushed to ensure that all the surfaces are moistened.

BOWLINE can then be applied directly from the squeeze bottle around the upper vertical surfaces of the toilet bowl or urinal.

Allow several minutes contact time before brushing and finally flushing with clean water.

HEALTH AND SAFETY INFORMATION

See separate Material Safety Data Sheet available on request.
