

PRODUCT INFORMATION SHEET

LIQUID LAUNDRY EUCALYPTUS & FLORAL

Liquid Laundry Eucalyptus & Floral are designed for use in top loading washing machines and for hand washing.

FEATURES

- Liquid Laundry is available in two options either Floral or Eucalyptus. Both products are effective detergents designed for use in top loading washing machines or for hand washing.
- Eucalyptus Liquid Laundry is a clear green viscous liquid with the freshness of pure eucalyptus oil. Floral Liquid Laundry is an opaque blue liquid with a fresh floral perfume that matches the perfume used in Chesser Fabric Softener.
- Both products offer good all round cleaning performance at a value for money price. The complex blend of five detergents give good cleaning in cold or warm water of a wide range of soils from grease and fat to clay and blood.
- Stubborn dirt and stains can be pre-treated by rubbing the neat product in first.
- Because they dissolve rapidly, and are not strongly alkaline, Liquid Laundry detergents are ideal for hand washing.
- Both detergents are also phosphate free and rapidly biodegradable so they help prevent any damage to the environment.
