

PRODUCT INFORMATION SHEET

REFRESHER TABS

Refresher Tabs are used to deodorise in toilet areas.

FEATURES

- Refresher Tabs are cube shaped blocks of compressed deodorant crystals. They come in various colours and fragrances.
- Refresher Tabs volatilise into the air and quickly cover foul odours in toilet areas.
- They also have insect repelling properties and will reduce problems with insects in toilet areas.

HOW & WHERE TO USE

- Refresher Tabs are a powerful deodorant so only need to be used sparingly. Most users place a few in the urinal trough, or on top of walls.
- As the Refresher Tabs volatilise into the air they are not water soluble, another method is to put a few into a muslin bag and hang up in the toilet area. This prevents problems with small fragments of the blocks being washed into drains and causing blockages.
- Refresher Tabs are toxic if swallowed and should be handled with gloves or tongs to prevent skin contact.
- Always close container lid after use or the blocks will volatilise in the tin and eventually disappear.

DISCLAIMER

Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven to be defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product.
