

PRODUCT INFORMATION SHEET

ROYAL LAUNDRY POWDER

Royal Laundry Powder is a fine granular, white powder a fresh floral perfume. It is a medium foam powder and is suitable for use in top or front loading washing machines.

FEATURES

- Royal Laundry Powder is a very economical powder that gives good results at a minimum cost.
- Royal Laundry Powder contains water softening agents, alkaline builders, anionic and non-ionic detergents for good all around performance. It does not contain any in-built bleach so can be used with chlorine or oxygen bleaches.

HOW TO USE

- For machine washing add $\frac{1}{2}$ cup for a normal load. If soiling is heavy, or load is extra large add an extra $\frac{1}{4}$ cup.
- For hand washing add $\frac{1}{4}$ cup or more to a tub of water. Fully dispense powder, then add clothes.
- Do not use on wool or silk. Only use on normal washable fabrics.
- If washing clothes with coloured stains such as wine, tea, coffee, cordial, etc. a bleach will assist in destaining.
- Chlorine or oxygen bleach can be used with Royal Laundry Powder. Chesser Bright is a powdered oxygen bleach suitable for all normal washable fabrics, both coloured or white. Add $\frac{1}{4}$ in addition to the Royal Laundry Powder in the wash, or use as a pre-soaker.
- For white fabrics only a chlorine bleach can be used. Add $\frac{1}{2}$ to 1 cup Chesser Liquid Bleach to 1 litre of water, then add to wash in addition to the Royal Laundry Powder.
