Note:

CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: **SATELLITE CLEAR FRESH**

SATELLITE CLEAR FRESH is a Cleaner, Descaler & Deodoriser for Bathrooms & Toilets.

FEATURES

- SATELLITE CLEAR Fresh contains a blend of detergents and natural organic acids. These dissolve hard water scale, soap scum and body fat in one easy operation. No hard scrubbing required.
- SATELLITE CLEAR FRESH contains a mild solvent to help dissolve body fat deposits, and combined with the fresh citrus scent, leaves bathroom and toilet areas smelling clean and fresh.
- SATELLITE CLEAR FRESH is safe for the environment containing biodegradable detergents and acids.

HOW & WHERE TO USE

- In toilet bowls and urinals use neat, squirting under the rim and along the top edge and allow to, run down. Spread over surface with a brush, then leave to act for a few minutes before flushing. Do not add any bleach to the toilet bowl when Clear Fresh is present, otherwise chlorine gas may be liberated.
- To clean showers, baths, basins etc use a 1:20 solution (1 cup in 5 litres of water). Sponge over surfaces or use in a trigger spray at 1:10 (50 ml in a trigger spray, with nozzle to coarse spray). Leave to act for a few minutes, and then wipe or rinse off.
- Do not use on marble or enamel baths as the surface may be attacked.
- For cleaning floors in bathroom and toilet areas use at a dilution of 1:50 (1/2 cup in 6 litres of water).

No Touch – No Spill System

A system of colour coded interlocking caps and dip tubes that are free from leaks and protect the operators from contact with dangerous chemicals.

SAFETY AND FIRST AID

HAZARDOUS according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS).
