Note:

CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: SATELLITE JOLI

SATELLITE JOLI is heavy duty alkaline floor and hard surface cleaner which although hazardous, is not a Dangerous Good according to the ADG Code.

FEATURES

- SATELLITE JOLI contains a special blend of readily biodegradable anionic and non ionic surfactants for excellent wetting and soil removal.
- SATELLITE JOLI contains water soluble solvents to improve soil removal from surfaces and equipment.
- SATELLITE JOLI contains water softening ingredients to prevent scale forming even when used at a low concentrations.
- SATELLITE JOLI is concentrated with a use dilution in the range 1:5 up to 1:100 depending on the degree of soiling and cleaning equipment used..
- SATELLITE JOLI is extremely easy to use through dispensing equipment with its “No Touch No Spill” SAFE pick up and over cap coupling device.

HOW & WHERE TO USE

- SATELLITE JOLI is suitable for use in a variety of food and non food areas from kitchens, food processing areas, workshops, to garages.
- Usage varies depending on degree of soiling and application. Dilute product from 1:5 (heavy) up to 1:100 (light soiling)
- General Cleaning: 1 part SATELLITE JOLI to 50 parts water (1/2 cup per 6 litres)
- Rinse product contacting surfaces with potable water after use.
- Safety goggles are recommended to protect your eyes. Your Chesser Chemicals Technician will maintain and service the dosing equipment and settings.

No Touch – No Spill System

A system of colour coded interlocking caps and dip tubes that are free from leaks and protect the operators from contact with dangerous chemicals.
