

SPIRAL

CHLORINATED ALKALINE AUTOMATIC DISH WASHING DETERGENT

DESCRIPTION

SPIRAL is a concentrated industrial dishwashing detergent formulated for automatic dispensing into the wash cycle. It contains chlorine and is therefore effective when de-staining of the crockery is required.

SPIRAL is therefore the product of choice in areas such as coffee shops where strong tea or coffee can leave tannin stains.

SPIRAL is suitable for use in hard water areas and will maintain the dishwasher in a clean condition free from scale.

APPLICATION

SPIRAL is dispensed automatically, your technical representative will maintain the correct dosage for your machine capacity and soil and water conditions

When using **SPIRAL** it is best to set the dispenser for a timed dose in every wash rather than electronic dose. This is because Chlorine is labile at high temperature and it will ensure chlorine is available at the commencement of each wash.

Use at a dilution of 1 to 2 grams per Litre depending on soiling and water conditions. The integrity and nature of the crockery can also dictate the dose requirement.

SAFETY AND FIRST AID

Classification	HAZARDOUS SUBSTANCE DANDEROUS GOODS Poisons Schedule – S6
Risk Phrase	R35 Causes severe burns
